

Adventure Through the Idaho Falls Zoo

Primates

1. Where would you find groups of black and white colobus monkeys?
2. Apes are primates that do not have tails. Which species of primate in the primate house is considered an Ape?
3. Lemurs inhabit an island off the coast of Africa. What is the name of this island?

Australia

1. There are five different species that live together in the large Australia yard. Name four of the five.
2. The rarest dog species in the world can be found in Australia. What is this dog species called?

Africa

1. Identify the two types of birds that live on the ground

2. Identify the one mammal species that lives with all the African birds

3. Name the two different cat species that live in the Africa area

Asia

1. Identify how each animal is classified on the IUCN Redlist of Endangered Species. Place an X in the box where the animal is listed.

| Animal | Extinct in the Wild | Critically Endangered | Endangered | Vulnerable | Near Threatened | Least Concern |
|-------------------|---------------------|-----------------------|------------|------------|-----------------|---------------|
| Sloth Bear | | | | | | |
| Red Panda | | | | | | |
| Bactrian Camel | | | | | | |
| Red Crowned Crane | | | | | | |
| Amur Tiger | | | | | | |
| Snow Leopard | | | | | | |

Children's Zoo

1. Match the animal to the continent that it is found on.

| | |
|-----------------|---------------|
| Yak | Africa |
| Donkey | Asia |
| Pot-bellied Pig | North America |
| Chicken | Europe |
| Dwarf Goat | Asia |
| Llama | South America |

North America

1. Name two different birds of prey found in North America. What is the difference between these two species?
2. Name five different types of ducks that live on the duck pond
3. These animals are one of the most playful animals in the zoo. They love to swim and can sometimes even be seen "sledding" in Yellowstone. What do these water loving mammals eat?

South America

1. Name the two other types of birds that live with the flamingos?
